PARENTS.

YOU'VE GOT THE SKILLS TO GET SOME NEW ONES.

You already tackle one of the toughest tasks around – so college is totally doable. And with Learn Around Life, you can take **free, flexible courses** on your terms.

WHY LEARN AROUND LIFE?

It's free.
Learning costs you absolutely nothing, and we could even support you with childcare and travel expenses.

It's flexible.
There are evening and part-time options. Some courses are delivered in the community or from home; it's not just on campus.

You'll be in good company.
Our college is for people of all ages, backgrounds and stages of life. Lots of our learners are adults coming back after time away.

You'll know where you stand.
Our team will help you understand your personal circumstances and ensure that, by taking a course, it won't impact your benefits or income.

Extra support is available.
If you require it, we can provide additional support with things like dyslexia, mental health, reading, writing, numbers and English.

You can start small.
Try a taster first. Bring a friend who's also interested. There's no pressure, and no need to know where it leads.

Visit **collegesscotland.ac.uk/LearnAroundLife** to find free, flexible courses at a college near you.
