Accounts direction for Scotland’s universities 2017-18

1. It is the Scottish Funding Council’s direction that universities comply with the 2015 Statement of Recommended Practice: Accounting for Further and Higher Education (SORP) in preparing their annual report and accounts.

2. Universities must comply with this accounts direction in the preparation of their annual report and accounts in accordance with the Financial Memorandum with the Scottish Funding Council (SFC).

3. The annual report and accounts should be signed by the chief executive officer and by the chair, or one other member of the governing body.

Scottish Funding Council
6 July 2018
Introduction and structure of accounts direction

Mandatory and corporate governance disclosures

1. We draw your attention to the specific mandatory disclosures for higher education institutions in Appendix 1. The corporate governance disclosures required are listed in Appendix 2.

Deadlines

2. Universities are required to provide their annual report and accounts, together with the associated audit reports, to us by 31 December 2018, although earlier submission from 1 December 2018 would be welcomed. The annual report and accounts should be prepared with a 31 July year-end.

3. Universities should note that the submission date for annual accounts and supporting documentation will be moved to 1 December from the 2019-20 academic year. The change of date has been agreed with the Scottish Universities Finance Directors Group following the recent consultation.

---

1 SRUC prepares its annual report and accounts on a 31 March year end basis
Appendix 1

Mandatory disclosures

Listed below are disclosures which universities must include in the financial statements.

Strategic Report

1. A list of members of the governing body and key committees. This should cover all those who served during the period and include any changes up to the date of signing the annual report and accounts. Attendance at Court meetings should also be included in the accounts or a link provided to where this information is held on the university website.

2. A statement describing the payment practice code or policy adopted on payment of suppliers and performance achieved, together with disclosure of any interest paid under the Late Payment of Commercial Debts (Interest) Act 1998, or a statement that there were no matters to disclose.

3. A statement on the employment of disabled persons where the average number of all persons employed in the year exceeds 250.

Notes to the accounts

4. The audit fees and non-audit fees paid to external and internal auditors.

Corporate governance

5. We require universities to include in their annual report and accounts a statement covering the responsibilities of their governing body in relation to corporate governance. This statement is required to indicate how the university has complied with good practice in this area.

6. It is a condition of the Financial Memorandum (FM) with SFC that governing bodies comply with the principles of good governance set out in the 2013 Scottish Code of Good HE Governance ("the Scottish Code"). Universities should include a statement specifically confirming compliance with the Scottish Code. In line with the principle of comply or explain, an explanation should be provided in the event that the institution’s practices are not consistent with particular principles.

7. As outlined in SFC Good Practice publication SFC/GD/25/2017, institutions are also expected to have been working towards full compliance with the new

---

Further guidance on Strategic reports is given in the 2015 SORP (paragraph 3.19 to 3.22)
Scottish Code of Good Higher Education Governance 2017 (the new Code) during 2017-18 which is classed as a transitional period. Full adoption of the new Code will take effect from 1 August 2018. Institutions are required to state their progress in complying with the new Code in the corporate governance statement alongside the statement of compliance with the 2013 Code. Institutions should use the wording in the template in Appendix 3 for reporting compliance with the Code.

8. We recognise that each university will have its own system of corporate governance, reflecting its particular objectives and management processes. However, in preparing their governance statement, universities should give due regard to the guidance contained in Appendix 2.

9. Universities should be aware that their external auditors will be reviewing the corporate governance statement as part of their audit and will be including a reference to this in their audit report.

10. The following paragraphs provide details of specific disclosures that must be included in the annual report and accounts.

**Remuneration**

11. The new Code notes that “the remuneration committee is expected to represent the public interest and avoid any inappropriate use of public funds”. To ensure greater transparency over decisions on remuneration, institutions are required to outline within their annual report details of the operation of the remuneration committee and the policy adopted for senior pay, including that of the Principal.

12. The actual total remuneration of the head of institution which must disclose separately salary, bonus, employer pension contribution and benefits in kind. Where there is a change of head of institution during the year, details should be given separately for each person, noting the dates each was in post.

13. Institutions should also disclose the relationship between the Principal’s remuneration and that of all other employees, expressed as a multiple of the median pay across all staff. The median is based on the annualised, full-time equivalent remuneration of all staff at the reporting date.

14. The total number of higher paid staff, including senior post-holders, in bands of £10,000, above a threshold of total emoluments (excluding pension contributions and compensation for loss of office) of £100,000. Payments funded from external sources, including the NHS, should be included in emoluments. The number of senior post-holders within each band should be separately identified.

15. The aggregate amount of any compensation for loss of office payable to the head of institution and any staff member earning in excess of £100,000 per annum, or
where the costs of all elements of a proposed arrangement amount to more than £100,000, together with the number of people to whom this was payable.

**Sustainability**

16. Main principle 1 of the 2013 Scottish Code of Good HE Governance refers to institutions’ responsibility for ensuring long-term sustainability. In this context, universities are required to include within their annual report and accounts a description of the sustainability framework within the institution. This should outline the process by which the University Court monitors the overall sustainability of the institution, including the key sustainability measures used.
Corporate Governance Statement Guidance for Universities

1. Universities are required to include in their annual report and accounts a statement covering the responsibilities of their governing body in relation to corporate governance. This statement is required to indicate how the university has complied with good practice in this area.

2. It is a condition of the Financial Memorandum with SFC that governing bodies meet the principles of good governance, set out in the Scottish Code.

3. Universities should include a specific statement in the corporate governance statement to confirm compliance with the Scottish Code. In line with the principle of comply or explain, an explanation should be provided in the event that the institution’s practices are not consistent with particular principles. The wording which institutions should use to confirm compliance is included at Appendix 3.

4. Universities are required to demonstrate robust governance, maintain a sound system of internal control and ensure that the following key principles of effective risk management have been applied. Effective risk management:

   - Covers all risks – including those of governance, management, quality, reputation and finance – but focuses on the most important risks.
   - Produces a balanced portfolio of risk exposure.
   - Is based on a clearly articulated risk appetite, policy and approach.
   - Requires regular monitoring and review, giving rise to action where appropriate.
   - Needs to be managed by an identified individual and involve the demonstrable commitment of the governing body and the executive leadership.
   - Is embedded into normal business processes and aligned to the strategic objectives of the organisation.

5. Universities are required to review at least annually the effectiveness of their system of internal control. Universities must include in their financial statements a statement on internal control. In formulating their statements, universities should refer to best practice guidance, including guidance from the British Universities Finance Directors Group.

Format of corporate governance statement

6. We recognise that each university will have its own system of corporate governance, reflecting its particular objectives and management processes, and the corporate governance disclosures in the annual report will differ
accordingly. It is expected that each university will tailor its corporate governance statement to reflect its own individual circumstances. However, good practice suggests that a corporate governance statement should include the following sections:

- **Introduction**, which shows the context and purpose of the corporate governance statement.
- **Governing body**, outlining the governance structure and the role of university committees, and their effectiveness.
- **Corporate strategy**, outlining the arrangements for strategic development.
- **Risk management and internal control**, setting out the arrangements for identifying, evaluating and managing risks and the arrangements for monitoring internal controls.
- **Going concern**, confirming that the university is a going concern, with supporting assumptions and qualifications as necessary. This disclosure provides support for the use of the going concern accounting policy and should not be inconsistent with the disclosures regarding going concern either in the annual report and accounts or the auditors’ report thereon.
- **Conclusion**, providing any concluding observations or messages.
Appendix 3

Template for the statement of compliance with the Scottish Code of Good Higher Education Governance

A revised Scottish Code of Good Higher Education Governance was published in 2017 which replaced the 2013 Scottish Code of Good Higher Education Governance. Academic year 2017-18 is considered a transitional year for compliance with the 2017 Code.

In the opinion of the Governing Body, the University/institution complies with all the principles and provisions of the 2013 Scottish Code of Good Higher Education Governance through the year and complies with the principles and provisions of the 2017 Scottish Code of Good Higher Education Governance by the end of July 2018.

Or

A revised Scottish Code of Good Higher Education Governance was published in 2017 which replaced the 2013 Scottish Code of Good Higher Education Governance. Academic year 2017-18 is considered a transitional year for compliance with the 2017 Code.

In the opinion of the Governing Body, the University/institution complies with all the principles and provisions of the 2013 Scottish Code of Good Higher Education Governance and is still working to ensure compliance with the 2017 Code. Areas of the 2017 Code where there remains non-compliance are:

[List areas of non-compliance]

The University/institution is taking action to address this by xxxx and xxxx and expects to be fully compliant by xxxx.
