Section 1: Revisions to the CLD data collection

1. Coverage: this data collection includes FE full-time successful leavers as well as HE full-time successful leavers.
Note: SRUC and HEI associated colleges are not required to return HE leaver destinations to SFC as these are returned via the Destination of Leavers from Higher Education (DLHE) collection and reported through the Higher Education Statistics Agency (HESA).
2. Courses: Section 2 includes a description of the courses covered in the CLD collection.
3. Data linkage: we continue to use data linkage and the matching of leaver destinations to two additional datasets: Skills Development Scotland (SDS) and the Students Awards Agency for Scotland (SAAS); however, this is restricted to 16 to 24 year olds only due to current legislative limitations.
4. Use of anecdotal evidence: please note section 2 under “reporting standards” the additional guidance on destination evidence collected anecdotally.
5. Destination source: the “destination source” field should be filled using the drop-down list to indicate from where the leaver destination data was sourced, for example, FES, SDS, SAAS, fellow student - present, fellow student - past, parent/guardian, other family member, lecturer, cannot be contacted, etc. For leavers not matched in the data linkage exercise we would ask colleges to make every effort to be accurate in the completion of this field.
6. Primary Classification and work: to improve understanding of employment destination we now require the employment category, e.g. employment, Modern Apprenticeship, self-employed, etc.
7. Course relationship to Employment: for those entering employment we require confirmation of the relevance of the course of study to the employment secured. See note 6 in section 2.
8. Primary Classification and study: please indicate the type of study is indicated, e.g. study, research, training.
9. SCQF Level or ‘Broadly Comparable’ Level: the SCQF level or ‘broadly comparable’ level must be accurately collected for those continuing in education as this is a key requirement for calculation of the KPI4 measure. The level should reflect the final SCQF level of the course being undertaken, e.g. an Honours Degree would be entered as SCQF level 10. Care should also be taken to establish the accurate course title of the progressing course.
10. Data outputs: note in section 2 the clause providing information on how we expect the outputs of the CLD collection being used publicly.

Section 2: Coverage and timing of CLD data

Requirements

1. For the purposes of the collection full-time includes the FES1 Mode of attendance of programme – code list G codes:
 - “05” short full-time.
 - “17” full-time.
 - “18” part-time, but previously met old full-time criteria.
2. For students successfully completing a full-time, FE level course (all colleges) and HE level course (SRUC and HEI associated colleges excluded), we require information on:
 - Primary Classification (Destination).
 - Employment details (where applicable).
 - Further study details (where applicable).
 - Destination Source (where applicable).
3. Please refer to Section 3 (on page 8) and code lists A, B and C when completing information. Annex C provides a reference to show the information required for each Primary Classification.
4. The first destination information should reflect the position for successful full-time students completing courses in the academic year ending July 2017.
5. The aim is to record for each successful full-time student what firm arrangements have been made for employment, further study or training to start by 31 March 2018 (following the end of the academic year of qualifying).
6. Again for the 2016-17 collection Employment should be defined specifically. Each qualifier entering employment should be classified according to:
 - Employment.
 - Modern Apprenticeship.
 - Self-employed/freelance.
 - Voluntary or other unpaid work.
 - Developing a professional portfolio/creative practice.
 - Internship.
7. Graduates due to start a job by 31 of March 2018 also fall into this category.
8. For example, Modern Apprentices should be categorised under Primary Classification as “*full-time employed*” and marked as Modern Apprenticeship.

9. Further related to the employment information, please establish the relationship of the secured employment to the course completed: "Is the job related to your course of study? Yes/No".

Suggested form of questionnaire

10. A sample questionnaire is provided at Annex A. An electronic version of this is available on request, although you are free to use your own method if you prefer.
11. Please note: the sample questionnaire allows the college to complete the CLD and to generate additional information for the college's internal analysis and reporting purposes.

Proposed method of collection

12. It is recommended that each college should allow for (up to) three contact attempts to be made. If there is no response after three attempts then the student destination should be recorded 'unconfirmed' rather than left blank.
13. Note: the staff member making each contact attempt should be documented at each attempt (name and date). The spreadsheet the SFC will issue to the college for final follow-up will provide columns for this information.
14. In cases where an early contact yields a negative destination response, for example at the College Graduation Ceremony, then a later follow-up should take place to check the leaver's current destination status.
15. Updating of pre-populated destinations with more current information known by the college is acceptable.

Reporting standards

16. Young people engaged in supported employment or work placement schemes should be categorised under Primary Classification as either:
 - "Engaged in full-time further study, training or research".
 - "Engaged in part-time further study, training or research".
 - Not in employment.
17. Note: a new column in the SFC-issued spreadsheet will include a dropdown menu related to study to identify study, research or training.
18. It is up to each college, in using professional judgement to decide whether to accept anecdotal destination information given by family members, fellow students past or present or college staff as credible. A questionnaire completed

by the student or through information gathered directly from the student (for example, over the telephone or at college graduation ceremony) is the best resource but departments can sometimes fill in gaps where questionnaires have not been returned.

19. If there is significant doubt about the reliability of any of the graduate information, this should be classified as 'unconfirmed' and not left blank.
20. A destination of intent is not acceptable; destinations must be actual.
21. SFC intends to introduce quality assurance checks, through sample auditing, of the destination data therefore, colleges should retain associated paperwork for at least one year.

Data outputs

22. The 2016-17 CLD data will be used to produce sector figures for the National Performance Measure: Number and proportion of full-time college qualifiers in work, training and/or further study 3-6 months after qualifying, and which College Regions will report and set targets for in 2018-19 Outcome Agreements. Additional [technical guidance from SFC on National Performance Measures – Annex D](#) is available on the SFC website.
23. A report on First Destination of College Leavers data: Academic Year 2016-17 student cohort will be published in September 2018.

Note on Data to be collected for specific Primary Classifications

24. An overview of information collected for each Primary Classification, is included in table form in Annex C: Primary Classification and compulsory fields.

Section 3: Notes and code lists for completion of CLD

Primary Classification

Primary Classification (destination) from CLD code list A (see page 10 for details). First destinations of students successfully completing full-time courses only. Current destination or expected to start by 31 March 2018, for all students completing in session 2016-17.

Select from the drop-down menu on the template.

Please enter the code exactly as it appears in the drop-down menu. Please do not edit the code numbers or wording.

Industry of Employer

Industry of Employer (Employer Category) from CLD code list B (see page 12 for details). For students successfully completing full-time courses who entered full-time, part-time, freelance employment, are in voluntary/unpaid work, developing a professional portfolio/creative practice, are on an internship as well as graduates due to start a job by 31 March 2018.

The code most appropriate to employer function should be used e.g. a personal assistant working in a school would be coded P: Education.

U: Activities of Extraterritorial Organisations and Bodies would apply to a graduate working for a non-UK based organisation. Where more than one code could be used to identify an employer, the code most appropriate to the employer function should be used.

Select from the drop-down menu on the template.

NOTE: Please enter the code exactly as it appears in the drop-down menu. Please do not edit the code numbers or wording.

Destination of Further Study

Destination of Further Study from CLD code list C (see page 13 for detail). For students successfully completing full time courses and going onto full-time/part-time study, training or research. Simply enter the number assigned to the College/University. You can check that a valid code has been entered by clicking on the cell - a text box with the location associated with that particular code should appear.

Select from the drop-down menu on the template.

NOTE: Please enter the code exactly as it appears in the drop-down menu. Please do not edit the code numbers or wording.

Notes on Primary Classification (Destination) - Code List A

1. To be assigned one of these codes the student must be starting the activity by 31 March 2018.

2. For those in full-time paid work only (including self-employed/freelance, voluntary/unpaid, developing a professional portfolio/creative practice or on an internship) and those in full-time work and further study.

Working part-time: employed/Modern Apprenticeship/self-employed/freelance, voluntary or other unpaid work, developing a professional portfolio/creative practice or on an internship

3. For those in part-time paid work only (including self-employed/freelance, voluntary/unpaid, developing a professional portfolio/creative practice or on an internship) and those in part-time work and further study.

Due to Start Job by the 31 of March

4. For graduates who are not currently in employment but have secured employment that is set to commence by the 31 of March 2018.

Engaged in full-time further study: study/ training/research

5. For those who are continuing with full-time study, training or research at college or university.

Engaged in part-time further study: study/training/research

6. For those who are continuing with part-time study, training or research at college or university.

Unemployed and looking for work

7. This applies to graduates who are assumed to be unemployed.

Taking Time Out in Order to Travel

8. For graduates who are unavailable for employment because of plans to travel.

Not Employed but NOT Looking for Employment, Further Study or Training

9. For those not seeking any employment/further study after graduating.

Permanently Unable to Work/Retired

10. Applies to those who are no longer available for employment.

Temporarily Sick/Unable to Work/Looking After Home/Family

11. For those who are presently unable to work but may look to take on employment/further study in the future.

Deceased

12. This should be used for students who successfully completed their course but are now deceased.

Unknown

13. Colleges are asked to use this code rather than leave blanks.
