Intake Targets for Initial Teacher Education in AY 2023-24

Purpose

1. I am writing to announce the university intakes to the controlled subject of Initial Teacher Education (ITE) for Academic Year (AY) 2023-24.

Summary of intake targets for AY 2023-24

2. The Scottish Government issued guidance to the Scottish Funding Council (SFC) on 3 February 2023 setting out the ITE intake targets for AY 2023-24 (see **Annex A**). The intake target for Primary PGDE has reduced by 200 places with other targets remaining unchanged from AY 2022-23. The table below summarises the sector intake targets, with individual university targets set out in **Annex B**.

| Academic Year | Primary Undergraduate and Combined | Primary PGDE | Secondary Undergraduate and Combined | Secondary PGDE | Total |
|----------------|------------------------------------|--------------|--------------------------------------|----------------|--------------|
| 2022-23 | 779 | 1,155 | 336 | 2,000 | 4,270 |
| 2023-24 | 779 | 955 | 336 | 2,000 | 4,070 |

3. Prior to setting the intake targets, SFC and the Scottish Government consulted universities involved in the delivery of ITE to discuss the reduction and overall requirement for trained teachers.

Priority Secondary subjects and consolidation policy

4. Universities have historically found it challenging to achieve target intakes in some subjects. The Scottish Government and SFC remain open to continued work with universities to develop alternative routes into subjects which have traditionally been difficult to recruit to, in response to the changing patterns of student demand for flexible learning routes.
5. However, we recognise that challenges are likely to remain with recruitment to some subjects. It is therefore vital that universities continue to be proactive in the promotion of teaching as a career choice for undergraduate students, both in their own institutions and in other universities that do not offer teaching provision.
6. **Table 2 in Annex B** sets a subject specific intake target for each individual university. Working with the Scottish Government and the Teacher Workforce Planning Advisory Group, SFC will continue to monitor recruitment to these subjects to assess if the sector is achieving the subject targets. We will also continue discussion with the

Scottish Government and universities on the approach to recovery of funds for over and under-enrolment in individual subjects.

Gaelic education

7. The supply of teachers able to teach in the Gaelic medium continues to be a priority for Scottish Ministers. The university targets set out in **Table 1** in **Annex B** include intakes specifically for Gaelic provision (summarised at **Annex C** and denoted with a **G**).
8. In addition to the above, universities are free to recruit as many student teachers of Gaelic as possible without being penalised. However, SFC is aware of the difficulties universities face in meeting intake targets specifically for Gaelic medium provision through the PGDE routes.
9. To tackle this, we expect universities to promote this provision on a part-time basis, as well as a full-time basis, and consider the introduction of further avenues to increase the numbers of Gaelic medium teachers in both the Primary and Secondary sectors where possible.
10. Universities are asked to note the priorities relating to teacher education contained within the National Gaelic Language Plan and the Gaelic Education Guidance, as referenced in the Scottish Government's guidance to SFC. In addition, universities are asked to contribute to the teacher education work stream of Faster Rate of Progress initiative for Gaelic.

Teachers in Catholic schools

11. Universities are asked to note the Scottish Government's advice on training teachers for Catholic schools, as set out in the guidance in **Annex A**. In particular, Catholic PGDE students at the Universities of Aberdeen, Dundee, Edinburgh, Strathclyde, West of Scotland, and the Royal Conservatoire of Scotland, should be made aware of the Catholic Teachers Certificate that is available to them - delivered by the University of Glasgow - to enable them to teach Religious Education in Catholic schools, subject to Church approval.

Diversity in the teaching profession

12. To support the Scottish Government in developing an education workforce that is representative of Scotland's increasingly diverse population, universities are asked to embed a proactive approach in terms of race equality.

Funding and funded places

13. SFC will provide further information with regards to teaching funding and funded student places for the controlled subject of ITE in our final university funding announcement for AY 2023-24 in May 2023.

Further information

14. Please contact Elizabeth Horsburgh, Funding Policy Officer, tel: 0131 313 6681, email: ehorsburgh@sfc.ac.uk, or Gavin Bruce, Assistant Director – Funding, tel: 0131 313 6585, email: gbruce@sfc.ac.uk.
